LISTA

FROM DISPENSING SYSTEMS TO PARTS MANAGEMENT

Optimise your storage with the electronic access control systems from LISTA!
A secure way to store, an efficient way to work – that is LISTA's promise. With our state-of-the-art electronic access control systems, we are revolutionising the warehouse management of important tools and materials. Our solutions not only offer security, but also efficiency and reliability. The specially developed LISTA E-Control software enables all access rights to be managed centrally. It seamlessly maps all handling, storage and retrieval processes, ensuring optimum order and full traceability.

Whether you need an individual electrical cabinet or would like to establish fully automated parts management – we have the solution for you. And all our solutions offer a modern and consistent look and feel.

LDC (Lista Drawer Control) – electronic lock on individual drawers.
E-Multicabinet – electronic lock on the individual compartment.
