

E-MULTICABINET

THE COMPARTMENT CABINET WITH VARIABLE COMPARTMENTS

The Thur Metall E-Multicabinet is available with variable compartments and a central service compartment, making it ideal for everything your business wants to store securely with electronic access control. From power tools to smartphones, work clothes or e-bike batteries.

The quantity and formats of the compartments can be flexibly combined and equipped with a wide array of power modules. This allows expensive equipment to be stored securely and charged at the same time.

- Variable compartment division with 2 to 24 compartments
- Power modules can be individually configured
- Optimum use of space
- Impressive value for money
- Can be integrated into existing TM eControl warehouse management software
