

SMARTBOX COMPACT ELECTRONIC ACCESS CONTROL

The Thur Metall SmartBox is the perfect addition for securely storing high-quality hand tools or components directly at the workstation.

Thanks to its compact design without protruding parts, it can be flexibly placed on and under tabletops or shelves. It enables reliable and traceable electronic access control for each drawer and includes an LED display and emergency release.

- One universal model in two cabinet heights
- Rear service access with emergency opening
- Versatile use as a workstation cabinet, overhead cabinet, etc.
- Impressive value for money
- Can be integrated into existing TM eControl warehouse management software

Quattro workstation with SmartBox
